Pharmaceutical statement by Barron Coleman, Dave Mallory and Redtop (News and Views)
This link is from hour 3. Begin listening at the 55:30 mark.

Caller/"Red Top": Hey bud, um I want to ask you a simple question. This has, I have a method to my madness.

Host/Baron Coleman: Ok.

Caller/"Red Top": How many years ago was the 13th century?

Host/Baron Coleman: Uh, that was the 1200's, I don't know. So, however many years ago that was.

Host/Dave Mallory: 800.

Caller/"red Top" 800.

Host/Baron Coleman: Yeah.

Caller/"Red Top" That's when the northern Europeans discovered that cannabis sativa Helped epilepsy.

Host: Baron Coleman: OK

Caller/"Red Top": For some reason, the State of Alabama, um, after 800 years of proving it helps epilepsy, can't come to a decision to uh legalize even medical marijuana.

Host/Baron Coleman: I tell you what... one of the biggest disappointments I've had in anybody in a long time was Becky Gerritson up there being a shill for big pharma.

Caller/"Red Top": There's no doubt. Let me tell you what, let me tell you what I want for these people.

Host/Baron Coleman: I expected better of a Tea Party leader, but that's just me.

Caller/"Red Top" I have epilepsy. I want Becky Gerritson and every one of these damn bums to have an epileptic seizure. A grand mall seizure, and let them know how it feels, and then have somebody shoot 'em up with phenobarbital and Dilantin afterwards and then let me know how they feel. These bums need to get off their butts and leave us alone in our life.

Host/Baron Coleman: Mmm, I agree.

Caller/"Red Top": It's a disgrace, it's a disgrace. This paper ballot stuff that they couldn't, uh, paper ticket stuff, they couldn't do it. If they can't get the job done, we need to get rid of them. It's time to get rid of them if they can't get the job done. They make too much damn money. Thank you.

Host/Baron Coleman: Appreciate it. Yeah, I was very disappointed in Becky up there, as a former Tea Party head up there shilling for big pharma acting like if you spoke pot, the next thing you know you're on black tar heroin. Or, she's parroting the big pharma whore line. She became a big pharma whore. Becky Gerritson, a big pharma whore, I can't believe it. I can't believe it. I never would've guessed she would have been the big pharma whore. But, she's up there in the meeting the other day saying, "There's no proven medical benefit."

Uh, bull - bleeped out. That's all I've got to say. I'm so disappointed in her. What a loser decision she's made to follow that crowd. Guys it's noon.....

May 30th-News and Views for Thursday May 30 2019 Hour 2 Talking about Eagle Forum taking money from Big Pharma. <https://www.podbean.com/media/share/pb-6uxuy-b2ee75>

23:18 Caller/"Red Top"... Just heard a speech by Cory Booker and learned some things about the Democrat Party and their platform that they're moving toward. In his speech he wants to change marijuana laws and leave it up to states ... Take it off of Schedule 1 which it is ahead of all the narcotic drugs... bad stuff ...

Host/David Mallory: All the bad stuff

Host/David Mallory: Schedule I means no known medical usage

Caller/"Red Top":Expunge record for everyone who had been arrested on marijuana charges and turn federal funds back to communities for war on drugs....now if that ain't a damn smart point of view I've never heard one. Every Democrat candidate short of Joe Biden has adopted this. This is a big damn leap forward...Alabama needs to get off its butt and pull its head out of its you know what and get out of the way. It's the churches and a lot of these people that are stopping it from happening. We need to get the churches out of govt. They do a lot of good but these people need to get real. A million of people in jail for marijuana. It's a disgrace...

25:10 Host/Baron Coleman: You got Becky Gerritson down there in a committee meeting parroting the same line that there is no known medical use for marijuana and it leads to like black tar heroin. And then when I say something about it I get grief. Let me tell you something if that is your position you are going against all rational thought.

Caller/"Red Top": These are flat earthers.

Host/Baron Coleman: Becky Gerritson was so deeply disappointing the other day advocating against a med marijuana bill for people with epilepsy and cancer. What the hell is wrong with

her? What the hell has she become? She used to be one of the most rock ribbed, rock solid conservative activists out there. What the hell has gotten in to these people?

Caller/"Red Top" – Like I said yesterday, let's give Becky Gerritson an epileptic grand mal seizure and see how she feels about it.... I don't wish that on anybody.... It's a disgrace. A million people in jail for marijuana. Jeff Sessions needs to be put in jail for what he has done to other people. Thank you

Host/David Mallory: – Red top definitely feels strongly about an issue.....I don't blame him. He has his reason. Not fair to make him a criminal..... It's dumb; outdated thinking.

Host/Baron Coleman - Ten years ago I might have agreed with them on some of this stuff, that marijuana shouldn't be illegal and all this...but I was believing big pharma's whore line that we got these pills and we are doing the best we can. Reality is that I don't believe in anything big pharma says any more. You got guys curing themselves of cancer with dog de-wormers after his insurance company spent a million dollars. There is a Movie on NetFlix now: Cancer Can Be Killed. Everyone in audience ought to watch it: talks about diet and exercise and different treatment options that aren't even legal here. There was a thing on Netflix a few years ago about a guy curing brain cancer in Houston and FDA and CDC running him out of business.

27:33 Host/Baron Coleman: If you are going to sit here and parrot big pharma, and you're going to go into a committee meeting and tell people who suffer with ALS and cancer and epilepsy that they can't access safe, organically grown, perfectly labeled, taxed marijuana to aid them - that they have to go in and use some pharmaceutical drug which destroys their liver and their lives and keeps them hooked on pain medicine for the rest of their lives, and dulls them into where they are just complete morons. If that is your answer Yes; you're a big pharma whore. I don't care if you actually get money from big pharma or not you're a big pharma whore. You're parroting the company line. I promise you Eagle Forum – somebody in Eagle Forum - makes money off of big pharma. I PROMISE you big pharma has donated to Eagle Forum at some point. Some big pharma company somewhere...some pharmaceutical company, some medical company, some insurance company. Somebody. I know how non-profit fund-raising works. I know how it works.

JULY 9th (During hour 2) Baron reacts to my bar compliant.

Baron: "I've got renewed vigor and purpose ladies and gentlemen. I've got renewed vigor and purpose for this program. The best is yet to come. You will learn in due time what I am talking about. You'll learn in due time what I'm talking about but I've got renewed vigor and purpose. Nothing in the world makes me happier than knowing I have motivation to do my best on a daily basis. Motivation to come in here and WOW the audience on a daily basis and I have renewed motivation and I cannot share that with you because I'm gonna let the proper people handle it in the proper order. I have hired lawyers and am pursuing a strategy of slash and burn, seek and destroy. You know one of the things I love about Donald Trump-you know why I think I fell in love with the man? I never let somebody come at me and don't take them out. Never. Matt Hart came after me, he got fired from the Attorney General's office. A radio host on another program came after me he lost his job. He's no longer on the air. If you come after me

you better be willing to go to the mat because I am. I'll lose everything destroying your life. I will lose absolutely everything in search of making sure your life is hell. And I got a new enemy. I didn't know I had one but I got a new enemy. And her lawyer sucks too. And I'm going to destroy this bitch. I'm going to absolutely destroy her. Her life will never be the same. I'm going after her. I'm going after her organization. I'm going after her national organization. I'm gonna uncap their...if you run a 501c4 you duck your head. You do not put your head up above water when you run a 501c4. Because the only purpose of running a 501c4 instead of a 501c3 is to hide your donors. I'm unmasking donors nationwide. 14 different chapters will be sued. Her life will be over. She will be begging me to go away in due time. She has a bad lawyer who gave her terrible advice...terrible, terrible advice. And I know he's listening right now and I know he's not gonna call her and tell her, "I'm sorry I gave you terrible advice--your life is about to be ruined." But I have never done battle with somebody and come out on the lower end of it. Mike Hubbard is going to prison. We did battle for years and now he's going to prison. Matt Hart and I did battle, he lost his job, AM radio host and I do battle he lost his job. I don't lose, people. I don't lose. I'm smarter than you guys are and I will blanking destroy you and everything you hold dear. I just want everyone to know that. You don't come after me. Don't come after me unless you have fully fully ready to engage. Fully ready to engage. You don't send half-assed letters to me. That will not end well. I just want everyone to be aware of that. If you threaten me I will burn at your damn house to the ground. Not in the physical sense but I will have you running back to Texas I promise.

July 9th Hour 3 Baron continues.

Baron: "I will say this I didn't realize my rant at the beginning of last hour was gonna have such an effect. I had a lot of text messages about that. And I wasn't kidding. I wasn't kidding. Sometimes it's better let a sleeping dog lie. But when you come after me I come after you 10 times as hard. And I will never give up. I'm just warning you. I will never give up. You can pay me to go away but short of that I will never go away. I never, ever, ever give up. And I win. I win when I go after people. Mike Hubbard thought he was God in this state when I started going after him. 4 years later he was convicted and headed to prison. The guy who sent him to prison came after me too, he got fired."

July 10th Hour 1 <https://www.youtube.com/watch?v=K8HyniKdvJ0&feature=youtu.be>

Baron: "I am on fire today! I am ready to destroy people. And I can't wait to get started. Taking too long in my opinion. I am going to win! I do not loose, EVER! I don't loose. I don't loose. YOU loose. You came at me you lose, you loose everything. I don't loose. You threaten me, I sue you or I destroy you. That's it, there is no third option. 38 minutes after 9 o'clock. It is a wonderful day to be an Alabamian because they're gonna be some real fireworks across the state the near future. Someone's proud organizations are gonna be brought completely to their knees and bankrupted. Someone, a great conservative activist around here will be brought completely to their knees and bankrupted, destroyed and humiliated. Because that's what I do. I don't _____ around. You step into the ring with me I will destroy you period. I just want people to be aware of that. Don't come after me lightly have your facts in check. Have your gun under your arm. You bring ammo.

July 10th Hour 3. <https://www.youtube.com/watch?v=y9ZaAU7Ab8Q&feature=youtu.be>

Baron: "I was communicating during the break. Sorry for the delay. I was communicating during the break on how to get someone, one of our listeners served with a law suit. Her and her statewide organization and the national organization. Of which I think the statewide organization may be a chapter. So we're going to have to sue all of them and I need to know where to send the lawsuit."
